<sup>[2]</sup> Age-adjusted by direct method to US Census adult population estimate using 2000 US Census estimates for the years 2010-2011, and 2010 US Census estimates for 2012. Describes the relative population burden when comparing groups.

<sup>[3]</sup> Responded "yes" when asked: Have you ever been told by a doctor or other health professional that you have some form of arthritis, rheumatoid arthritis, gout, lupus, or fibromyalgia?

<sup>[4]</sup> Responded "yes" when asked: Are you now limited in any way in any of your usual activities because of arthritis or joint symptoms?

<sup>[5]</sup> A bed day is defined as 1/2 or more days in bed due to injury or illness in past 12 months, excluding hospitalization.

<sup>[6]</sup> A missed work day is defined as absence from work due to illness or injury in the past 12 months, excluding maternity or family leave.
