

Table 4A.1.3: Age-adjusted Prevalence of Osteoporosis and Low Bone Mass at Either the Femoral Neck or Lumbar Spine, by Sex and Hispanic Ethnicity, United States 2005-2010

	Prevalence Rate (%)			
	Female		Male	
	<u>Osteoporosis</u>	<u>Low Bone Mass</u>	<u>Osteoporosis</u>	<u>Low Bone Mass</u>
Puerto Rican	10.7[a,b]	46.7[a]	8.6[a]	34.6[a]
Mexican American	16.0[a]	50.1[a]	3.9[a,b]	38.3[a]
Non-Hispanic White	10.1[b]	51.5[a]	2.3[b]	34.5[a]
Non-Hispanic Black	3.8[c]	35.8[b]	1.3[b]	20.4[b]

[a-c] Estimates with the same notation signify overlap of 95% confidence interval between groups.
